Acoufortex Ltd boasts over 20 years of expertise in the sponge, plastic, and rubber industry. With a comprehensive production line, we cater to diverse needs across various settings, including homes, offices, music rooms, and theaters, offering end-to-end services. Specializing in high-molecular materials such as sponge, plastic, and rubber, we leverage platform-based resource integration to reduce costs and enhance efficiency. Our goal is to establish a world-class, full-industry-chain supply platform for eco-friendly high-molecular materials, delivering significant value to our clients.

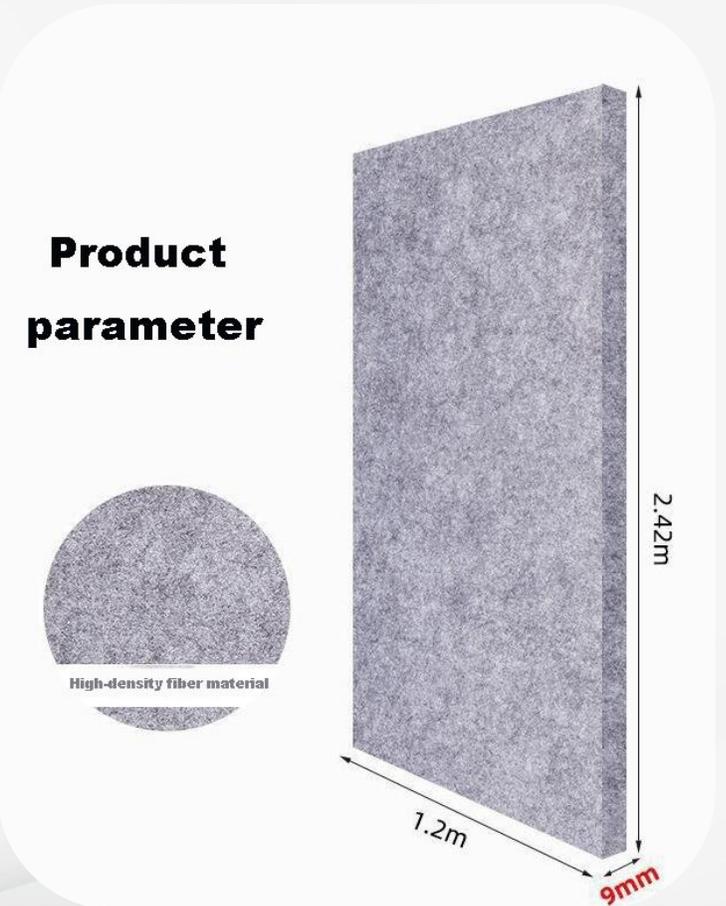

Polyester Fiber sound-absorbing board is an indoor acoustic decorative material mainly made of polyester fiber. It has the characteristics of sound absorption, noise reduction, environmental protection and fire resistance, and is widely used in places with high requirements for acoustic environment such as concert halls, meeting rooms, cinemas and offices.

### Main Features

- Excellent Sound Absorption – Effectively absorbs mid-to-high-frequency noise (e.g., voices, music), reducing reverberation.
- Eco-Friendly & Safe – Made from recyclable polyester fiber, free from formaldehyde/asbestos.
- Flame Retardant (B1 Grade) – Meets GB 8624-2012 standards for public spaces.
- Lightweight & Easy to Install – Can be glued or mounted on frames.
- Decorative & Customizable – Available in colors, textures (fabric/wood grain), and custom designs.

## PRODUCT INFORMATION

Item	Description
Size (L*W)	1220*2420mm
Thickness	9mm/12mm/15mm/20mm (customized)
Density	1200gsm/kg-3600gsm/kg
NRC	0.6~0.9 (500-4000Hz)
Fire Rating	B1
Color/Texture	Multiple standard colors (customization supported)
